

KEY

- Print Bleed 
- Box Outline 
- Fold Lines 

INSTRUCTIONS

1. Make sure your background extends all the way to the green bleed line. Otherwise, you may have white space in your design.
2. Please reference the sample to see REQUIRED FDA information for your box.
3. The front flap folds over the back and tucks into the slit on the back of the box.
4. Ensure your important elements (text, etc.) do not extend into folds.
5. Turn off all un-wanted layers
